

# Homemade Clay Lobster

1/4 Cup each of Flour (+3tbsp), Corn Starch, Salt, and Water, Mixing Bowl, Wooden Spoon, Food Coloring, toothpick, butter knife.

Mix the dry ingredients and then slowly mix in the water until a ball of clay is formed.

The clay ball should not stick to the spoon or you, if it does add a little bit of flour.

If it is crumbling apart add a little bit of water. Turn the dough out on a floured surface, make a well, add food coloring, and knead until the color is consistent through the clay. divide the clay into three equal part (one for the head & body, one for the tail & flippers, one for the legs, claws, antenna, and eyes)

Use one ball of clay to shape the head and body

Use a the second ball of clay to shape the tail & flippers

Divide the 3rd ball of clay in half and then into thirds

With the six pieces of clay you will make the two claw and the knuckled legs, 8 walking legs, 2 antenna, 4 antennole, and 2 eyes
